4. REQUEST FOR UNITEC TO PROGRAM CREDIT CARD DEVICE

This is to advise DRB Systems, LLC dba Unitec, Inc. ("Unitec") that our Company has acquired the above Unitec Product containing a credit card device intended to be used to facilitate the electronic deposit of funds. The Company recognizes that the information provided must be accurate or the deposits may not actually be made, they may be made into an incorrect account, and/or there may be other adverse consequences. The Company further understands that Unitec cannot confirm when the Unitec Product is first used by us, or whether deposits are being properly made as intended.

Therefore, the Company agrees that it shall confirm with the above institution that the Product is properly directing deposits into the correct account by running a test transaction prior to the first use of the Product, and it shall immediately cease using the Product and immediately notify Unitec by fax at the above number if funds are not being correctly deposited as expected. It shall not use the Product at any time thereafter, until the problem is resolved, and proper verification of deposits can be made.

The Company agrees that it shall assume, and it shall be solely responsible for any losses it sustains at any time due to the inaccuracy of any of the above banking information, even if they are the result of Unitec's incorrect input of information into the credit card device. Should the Company pursue a claim against Unitec to recover damages for losses for which it has assumed liability as set forth above, it shall hold harmless and indemnify Unitec from any and all costs and expenses Unitec shall reasonably incur in defending against an action brought against Unitec.

5. INTERNET PROCESSOR OPTIONS

For the following options, Internet service through a broadband connection (DSL, Cable) must be available at the site. This will typically require establishing an Internet Service account through a local telecommunications company or other Internet Service Provider (ISP). The installation of this service must include a network router that uses DHCP addressing.

*** Each machine must have a separate Terminal ID***

PRIORITY (PPS) HOST CAPTURE

The site owner must establish an account with PPS for transaction processing. To set up an account, contact PPS at 678-269-6960 EXT. 701.

Merchant ID (1-16 digits) _____

Terminal ID (8 digits) _____

Group ID (5 digits) _____

Merchant Category Code (0 or 4 digits) _____

IMPORTANT!

These instructions must be carefully followed to complete a successful installation and proper operation. Variance from these instructions will result in a delay of credit card processing. The credit card device will not be sent out with any Wash Select II/POS or Portal TI units until Unitec receives the merchant information.

Unitec, Inc. is not responsible for any loss of transaction data and specifically disclaims any liability for actual or consequential damages, limiting liability to repair or replacement as set forth in Unitec, Inc.'s limited warranty.
